PROFILE

Game designer and developer studying at Tiltan College of Arts who designs systems, writes code, creates pixel art, and edits trailers — covering the full pipeline solo when needed. Driven by creative thinking, a strong sense of ownership, and a track record of building games that feel great to play.

EDUCATION

Game Design and Development — Tiltan College of Arts 2025 – 2028 (Expected)

Coursework: Introduction to C#, Object-Oriented Programming, Game Design

Full Bagrut (Israeli Matriculation) Diploma — Ankori North High School 2015 – 2018

3 units Mathematics, 5 units English, expanded Cinema studies track · Praised for academic excellence 3 years running

EXPERIENCE

Yourpixel — Community Manager & Game Designer 2017 – 2020

Minecraft Server · Live Game Design · Community Management

- Designed game modes and quests to support diverse playstyles and retention
- Recruited and led a team to build new content

Grew active player base from ~30 to ~200 concurrent players

YouTube & Content Creator 2012 – 2023

Video Production · Community Building · Long-Form Content

- Scripted, filmed, and edited long-form video — skills used directly in trailer work today
- Managed a large, engaged community for 10+ years

20,000+ subscribers

Fighter Jet Technician 2020 – Present · Reservist

Israeli Air Force · Aircraft Maintenance · Military Technical Service

- Advanced technical troubleshooting on aircraft systems, supporting operational flights
- Proposed procedure and scheduling improvements; managed equipment and inspections within the Hardened Aircraft Shelter (HAS)

Squadron Excellence Certificate, 2021

Aircraft Mechanic — El Al Airlines 2023 – 2024

Commercial Aviation · Maintenance & Inspections

- Diagnosed and resolved aircraft malfunctions through technical troubleshooting
- Coordinated shift handovers and prioritized team collaboration under time pressure

Maintained 4 commercial aircraft types

PROJECTS

Dekelatro Finished · Solo · C#

Poker-roguelite scoring mechanics, run pacing, and risk/reward economy — built as the final project for Introduction to C#.

Trials of the Dungeon Finished · Lead Designer · Board Game

Cooperative dungeon-crawl board game — tile exploration, class design, and a final boss fight. Physical product; wrote the full rulebook.

TiltanTale In Progress · C# · MonoGame

Undertale-inspired RPG — escape Tiltan College, face your teachers as bosses, and find your way back to the overworld.

Brave the Wilderness In Progress · Unity · Android

Mobile survival game with full meta progression — session design, offline rewards, and a layered economy.

Dice Bound — GDD Design Complete · Unity (Planned)

Party-based idle battler — dynamic dice roles, spell synergies, and a prestige meta loop. Lead designer on a 3-person team; shelved after a team postmortem.

RunicRPG Planned · Unity

2D action RPG using the Tiny Sword asset pack — layered combat, meta systems, and world exploration.
